# Digital Scholarship Program Profile

- Digital Consulting and Production Services Headquarter
  - digitization, metadata, copyright/IPR, e-publishing, delivery platforms & repositories
  - faculty partnerships in digitization (digital humanities, visual resources grants)
  - setting up requirements and workflows for gathering and managing “digital evidence”
- Scholarly communication services
  - arXiv, eCommons, Euclid, CUL archival repository, and e-publishing initiatives
  - requirements analysis, business planning, policy development, assessment, user support
  - coordination of open access initiatives
  - facilitate communication & collaboration among CUL scholarly communication teams
- Preservation & archiving policies, workflows, user support (ingest, submission, etc.)
- Web design – interface & graphic design, user experience design (usability), accessibility, CUL templates/branding
- Liaison to CIT & CTE for academic technology strategy development, and service coordination & delivery

# Distributed Services: Communication, Coordination, Collaboration

---

- Critical role of departmental liaisons & subject specialists
  - digital scholarship (embedded librarianship)
  - academic technology support (blended librarianship)
- How can we design and implement virtual pipelines for facilitating two-way communication with subject specialists & CUL DigSS staff?
- What kind of forums, collaboratives, and working groups do we need to facilitate communication, collaboration, and joint vision setting?
