iMac Setup (scorer's booth)

Connect to power and network (ethernet port to either jack in the white box under the table near the microphone stand)

Press the power button to turn on (located on the back lower left, facing the screen)

Verify that Location is set to "RinkReplay" in Network panel of System Preferences

Laptop Setup (press box)

Connect to power and network (either jack in the white "replay" box under the end of the table)

Power on

Verify that Location is set to "RinkReplay" in Network panel of System Preferences (ethernet must have an 10.18.18.x IP address)

"Connect to Server" in Finder (⌘K or Go → Connect to Server) or click "Screen Sharing" in the dock

Enter or select vnc://10.18.18.1 to connect to iMac

Shutdown

Shut down iMac (Apple Menu → Shutdown...) before disconnecting laptop

Disconnect both machines and put away

Start Recording

Double-click RinkReplay icon on upper right of desktop (or Applications/RinkReplay) wait 15 seconds, then check the 'Record' checkbox

Stop Recording

Quit (⌘Q) RinkReplay application (if you get a message that the application "quit unexpectedly", just click "Cancel". This will be fixed in a future release)

On Desktop, there are MIH and WIH folders with game folders for each game. You will move all files to the corresponding folder for each game.

Original game video files are saved as Macintosh HD:Replay:RinkReplay<Date>

On A Goal

Use mouse to click "Review" button for desired goal

⌘←	To play backward

Wait until puck comes out of net.

<space>	Pause
<space>	to watch in real time
<space>	to Pause
→ Arrow	for slow motion forward
← Arrow	for slow motion backward

Save a Clip

Select a range of the movie (hold down <shift> while either playing or dragging the playback slider)

⌘C To copy the Selection
⌘N To open a new window
⌘V To paste the clip
⌘S To open the standard Save dialog

Feel free to do further editing before saving.

End of Period/Game/Recording

Save a clip of each goal and each period to the game folder.

Name the files you save:
Periods: Period1,2,3,OT1, etc..
Goals: CUGoal1,2 or <opp>Goal1, etc..
Reviews with no goal: Review1,2,3
