Data Direction:	Output (from Central Finance)
Data Currency:	Batch
Data Type:	Data Set
Data Frequency:	Yearly
Data Volume:	Differs from one unit to the next
Business Critical:	Yes
Currently Exists?:	Yes
Proposed Solution:	Unknown

Description

« Hide

Once the budget cycle has commenced, units will pull their Budget Roster from the warehouse for use in their workforce planning process (note, there is an internal process that flags records as "SIP-eligible" which would need to run before units can do this). This is only run once a year, but it's run separately by each Unit.

Eventually this will simply be a warehouse download, but for this first year it is not expected that these data will be in the warehouse, so some manner of interim solution will be needed.
