

arXiv history

1991-93

- early arXiv service for hep-th
- Similar started at Duke (math.ag), FSU (hep-lat)
- gopher interface
- www interface
- econ at WUSTL
- new hardware from DOE

1994-96

- new announcements forum
- new subject areas
- hep-lat moves to LANL
- NSF funding
- postscript from TeX
- PDF generation
- web uploads
- # mirrors grows
- new hardware from NSF
- physics reorg

1997-99

- math reorg
- consolidation of other archives to LANL
- new: CS
- arxiv.org domain name
- 100,000th paper
- announcements forum shut down

2000-05

- PG and arXiv move to Cornell
- admin and hardware operations to CUL
- PG named MacArthur fellow
- new submission interface
- email downloads phased out
- new: q-bio
- endorsement system
- s/w reversion after failed upgrade

2006-08

- change arXiv identifiers to accommodate growth
- new: stat
- withdrawal of 65 papers for plagiarism
- 500,000th paper
- new: q-fin

2009-11

- reorg astro-ph
- author identifiers
- facebook app
- myarticles
- service interruption
- DC data pilot starts
- ScienceWISE
- Simons grant for governance planning
- 20th anniversary

2012-14

- several mirrors discontinued
- operating grant from Simons Foundation
- new membership model
- MAB and SAB, Scientific Director
- DC data pilot and Facebook app discontinued
- MathJax
- digit added to identifiers
- 1,000,000th paper

2015-present

- yearly submissions top 100,000, monthly top 10,000
- arXiv@25 review strategy
- User survey gets >36,000 responses
- Sloan grant to rebuild
- 25th anniversary
- service interruption
- AI2 grant
- nextgen development underway
