

# SAFETY DATA SHEET

Revision Date: 03/Apr/2015

# 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product Identifier Product Description:

# **POLYLITE® 33087-17**

Other means of identification SAP ID(s): Material Code: Chemical Family

148836 ; 148847 33087-17 Polyester Resin

Recommended use of the chemical and restrictions on useIntended Use:Laminating ResinUses advised againstNo information available

Details of the supplier of the safety data sheet Manufacturer/Supplier:

Reichhold LLC 2 Corporate Headquarters P.O. Box 13582 Research Triangle Park, NC 27709 USA Tel +1-919-990-7500 Fax +1-919-767-8602 **Emergency Telephone** 

(Chemtrec) 1-800-424-9300

# 2. HAZARDS IDENTIFICATION

# **Classification**

# **OSHA Regulatory Status**

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

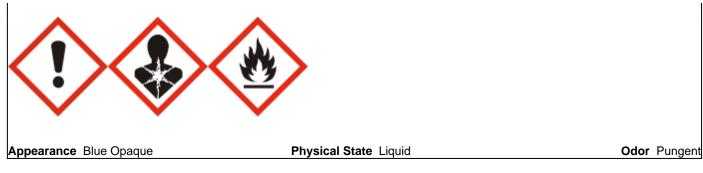

Acute toxicity - Inhalation (Vapors) Skin corrosion/irritation Serious eye damage/eye irritation Skin sensitization Carcinogenicity Reproductive toxicity Specific target organ toxicity (single exposure) Specific target organ toxicity (repeated exposure) Chronic aquatic toxicity Flammable liquids Category 4 Category 2 Category 2A Category 1 Sub-category 1B Category 2 Category 3 Category 1 Category 3 Category 3 Category 3

# Label elements

# **Emergency Overview Statements**

# Danger

Hazard Statements Harmful if inhaled Causes skin irritation Causes serious eye irritation May cause an allergic skin reaction May cause cancer Suspected of damaging fertility or the unborn child May cause respiratory irritation Causes damage to hearing through prolonged or repeated exposure if inhaled Harmful to aquatic life with long lasting effects Flammable liquid and vapor

# **Precautionary Statements - Prevention**

Obtain special instructions before use Do not handle until all safety precautions have been read and understood Use personal protective equipment as required Wear protective gloves/protective clothing/eye protection/face protection Use only outdoors or in a well-ventilated area Wash face, hands and any exposed skin thoroughly after handling Contaminated work clothing should not be allowed out of the workplace Do not breathe mist, vapors, spray Do not eat, drink or smoke when using this product Keep away from heat/sparks/open flames/hot surfaces. - No smoking Keep container tightly closed Ground/bond container and receiving equipment Use explosion-proof electrical/ventilating/lighting equipment Use only non-sparking tools Take precautionary measures against static discharge Keep cool Avoid release to the environment

#### **Precautionary Statements - Response**

IF exposed or concerned: Get medical advice/attention IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing If eye irritation persists: Get medical advice/attention If skin irritation or rash occurs: Get medical advice/attention IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower Wash contaminated clothing before reuse IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing In case of fire: Use CO2, dry chemical, or foam to extinguish

# **Precautionary Statements - Storage**

Store in a well-ventilated place. Keep container tightly closed

#### **Precautionary Statements - Disposal**

Dispose of contents/container to industrial incineration plant Dispose of in accordance with federal, state and local regulations

# Hazards not otherwise classified (HNOC)

Other Information

May be harmful in contact with skin

Unknown acute toxicity57.5% of the mixture consists of ingredient(s) of unknown toxicity.Unknown aquatic toxicity57.7% of the mixture consists of components(s) of unknown hazards to the aquatic<br/>environment.

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

Component	CAS No	Weight-%	Trade Secret
Polyester resin	Proprietary	55.5 - 57.5	

Styrene	100-42-5	41.9	
Cobalt compounds	Proprietary	< 0.2	*

\* The exact percentage (concentration) of composition has been withheld as a trade secret. If CAS number is "proprietary", the specific chemical identity has been withheld as a trade secret.

4. FIRST AID MEASURES		
First Aid Measures		
Eye Contact	Immediately flush eyes for at least 15 minutes. Get medical attention.	
Skin Contact	Wash off with warm water and soap. Remove contaminated clothing and shoes. If skin irritation persists, call a physician. Wash contaminated clothing before reuse.	
Inhalation	Remove person to fresh air. If signs/symptoms continue, get medical attention. Keep patient warm and at rest. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Get medical attention immediately.	
Ingestion	Do not induce vomiting. Potential for aspiration if swallowed. This material may enter the lungs during vomiting. Immediately give the victim one or two glasses of water or milk to drink. Never give anything by mouth to an unconscious person. GET IMMEDIATE MEDICAL ATTENTION.	
Most important symptoms and effects, both acute and delayed		
Most Important Symptoms and Effects	Inhalation of high vapor concentrations can cause CNS-depression and narcosis.	
Indication of any immediate medical attention and special treatment needed		
Notes to Physician	Treat symptomatically.	

# **5. FIRE-FIGHTING MEASURES**

# Suitable Extinguishing Media

Carbon dioxide (CO2), Foam, Dry chemical, Water spray

# Unsuitable Extinguishing Media

Do not use a solid water stream as it may scatter and spread fire.

# Specific hazards arising from the chemical

Hazardous combustion products	Combustion may produce carbon monoxide, carbon dioxide and irritating or toxic vapors and gases
Combustion/Explosion Hazards	Flammable. Vapors may form explosive mixture with air. Flash back possible over considerable distance. Empty containers may retain product residue (liquid and/or vapor). Do not pressurize, cut, weld, braze, solder, drill, grind, or expose these containers to heat, flame, sparks, static electricity, or other sources of ignition as the container may explode and may cause injury or death. Empty drums should be completely drained and properly bunged. Empty drums should be promptly returned to a drum reconditioner or properly disposed. Closed containers may rupture when exposed to extreme heat.

# **Protective Equipment and Precautions for Firefighters:**

Wear self-contained breathing apparatus (SCBA) and full fire-fighting protective clothing. Thoroughly decontaminate all protective equipment after use. Evacuate all persons from the fire area to a safe location. Move non-burning material, as feasible, to a safe location as soon as possible. Fire fighters should be protected from potential explosion hazard while extinguishing the blaze. DO NOT extinguish a fire resulting from the flow of this flammable liquid until the flow of liquid is effectively shut off. This precaution will help prevent the accumulation of an explosive vapor-air mixture after the initial fire is extinguished. Use water spray to cool fire-exposed containers.

# 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

Personal Precautions	Remove all sources of ignition. Evacuate personnel to safe areas. Use personal protective equipment as required. Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.		
Environmental Precautions			
Environmental Precautions	Prevent further leakage or spillage if safe to do so. Do not allow material to contaminate ground water system. Prevent product from entering drains. Soak up with inert absorbent material and dispose of as hazardous waste. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.		
Methods and material for containment and cleaning up			
Methods for Containment	Prevent spilled material from 1) contaminating soil, 2) entering sanitary sewers, storm sewers, and drainage systems, and 3) entering bodies of water or ditches that lead to waterways. Prevent spreading over a wide area (e.g. by containment or oil barriers).		
Methods for Clean-up	Soak up with inert absorbent material. Remove from surface water (e.g. by skimming or siphoning). Dispose of contaminated material as waste according to item 13.		

# 7. HANDLING AND STORAGE

#### Precautions for Safe Handling

Do not breathe vapor or mist. Avoid contact with eyes, skin and clothing. Wash hands before breaks and immediately after handling the product. Take off contaminated clothing and wash before reuse. Ensure adequate ventilation. Ground and bond containers when transferring material. Use spark-proof tools and explosion-proof equipment. Consult your supplier of promoters and catalysts for additional instructions on proper mixing and usage. Empty containers may retain product residue (liquid and/or vapor). Do not pressurize, cut, weld, braze, solder, drill, grind, or expose these containers to heat, flame, sparks, static electricity, or other sources of ignition as the container may explode and may cause injury or death. Empty drums should be completely drained and properly bunged. Empty drums should be promptly returned to a drum reconditioner or properly disposed.

# Conditions for safe storage, including any incompatibilities

Storage

Handling

Keep away from heat and sources of ignition. No smoking. Keep away from direct sunlight. Keep containers tightly closed in a cool, well-ventilated place. To ensure maximum stability and maintain optimum resin properties, resins should be stored in closed containers at temperatures below 77°F (25°C).

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

# **Exposure limits**

Styrene (CAS #: 100-42-5)	
ACGIH TLV	20 ppm TWA
	40 ppm STEL
	A4 Not Classifiable as a Human Carcinogen
OSHA PEL	100 ppm TWA
	200 ppm Ceiling
Industry PEL	While the federal workplace exposure limit for styrene is 100 ppm, OSHA accepted the styrene industry's proposal to voluntarily meet a PEL of 50 ppm on an 8 hour TWA and a Short Term Exposure Limit (STEL) of 100 ppm, 15 minute exposure.

Canada - Alberta OELs	40 ppm STEL
	170 mg/m <sup>3</sup> STEL
	20 ppm TWA
	85 mg/m <sup>3</sup> TWA
Canada - Ontario OELs	35 ppm TWA
	100 ppm STEL
Canada - British Columbia OELs	50 ppm TWA
	75 ppm STEL
NIOSH IDLH	700 ppm Immediately dangerous to life or health IDLH
Mexico OEL	100 ppm STEL
	425 mg/m <sup>3</sup> STEL
	50 ppm TWA
	215 mg/m <sup>3</sup> TWA
	(skin)
<u>Legend</u>	

ACGIH (American Conference of Governmental Industrial Hygienists) TLV® (Threshold Limit Value) TWA (time-weighted average) STEL - Short Term Exposure Limit OSHA - Occupational Safety and Health Administration PEL - Permissible Exposure Limit OEL - Occupational Exposure Limit NIOSH - National Institute for Occupational Safety and Health IDLH - Immediately Dangerous to Life or Health SKIN: Skin Absorption

#### Appropriate engineering controls

Engineering Controls	Use general ventilation to maintain airborne concentrations to levels that are below regulatory and recommended occupational exposure limits. Local ventilation may be required during certain operations. Use explosion-proof equipment.
Individual protection measures, suc	ch as personal protective equipment
Eye/face Protection	Safety glasses with side-shields. If splashes are likely to occur:. Tight sealing safety goggles. Ensure that eyewash stations and safety showers are close to the workstation location.
Skin Protection	Wear protective nitrile rubber or Viton <sup>™</sup> gloves. Gloves made of nitrile rubber or polyvinyl chloride (PVC) may be used for splash protection and brief or intermittent contact with styrenated polyester resin. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. Impervious clothing. Rubber or plastic boots.
Respiratory Protection	None required if hazards have been assessed and airborne concentrations are maintained below the exposure limits listed in Section 8. Wear an approved air-purifying respirator with organic vapor cartridges and particulate filters where airborne concentrations may exceed exposure limits in Section 8 and/or there is exposure to dust or mists due to sanding, grinding, cutting, or spraying. Use an approved positive-pressure air-supplied respirator with emergency escape provisions if there is any potential for an uncontrolled release, airborne concentrations are not known, or any other circumstances where air-purifying respirators may not provide adequate protection
General Hygiene Considerations	Handle in accordance with good industrial hygiene and safety practice.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance Odor Odor Threshold Physical State pH Blue Opaque Pungent 0.2 ppm (Styrene) Liquid No information available

32 °C / 89 °F Flash Point **Flash Point Method:** Seta closed cup 490°C / 914°F (Styrene) **Autoignition Temperature** 146°C / 295°F (Styrene) Boiling point / boiling range No information available Melting point / Freezing point Flammability Limit in Air Lower 1.1% (Styrene) Upper 6.1% (Styrene) **Specific Gravity** 1.066 - 1.114 @ 25°C Insoluble (Water) Solubility **Evaporation Rate** 0.49 (BuAc = 1) (Styrene) Vapor Pressure 5 mmHg @ 20°C (Styrene) 6.7 hPa (Styrene) Vapor Density 3.6 (Air = 1) (Styrene)**Explosive Properties** No information available **Oxidizing Properties** No information available Percent Volatile, wt.% 40.5 - 44.5 % by weight 457 g/l (calculated) product as supplied **VOC Content:** 550 - 650 cps @ 25°C Viscosity Partition Coefficient (n-octanol/water) No information available **Decomposition temperature** No information available

# **10. STABILITY AND REACTIVITY**

#### Reactivity

No dangerous reaction known under conditions of normal use.

#### **Chemical Stability**

Stable under normal conditions. Stable under recommended storage conditions.

#### **Possibility of Hazardous Reactions**

# Hazardous Polymerization

Polymerization can occur. Hazardous polymerization will occur if contaminated with peroxides, metal salts and polymerization catalysts. Product will undergo hazardous polymerization at temperatures above 150 F (65 C).

#### Conditions to Avoid

Heat, flames and sparks. Contamination by those materials referred to under Incompatible materials.

#### Incompatible materials

Strong acids. Strong oxidizing agents. Metal salts. Polymerization catalysts.

## **Hazardous Decomposition Products**

Hydrocarbons. Carbon monoxide. Carbon dioxide (CO2). Thermal decomposition can lead to release of irritating and toxic gases and vapors.

# **11. TOXICOLOGICAL INFORMATION**

# Information on likely routes of exposure

**Primary Routes of Entry** 

Eye contact, Ingestion, Inhalation, Skin Contact, Skin absorption

Acute toxicity

S

Styrene	
Oral LD50	= 5000 mg/kg (Rat)
Dermal LD50	> 2000 mg/kg (Rat)
Inhalation LC50	= 11.8 mg/l (4 H) (Rat)

### Information on toxicological effects

#### Symptoms

Symptoms of overexposure are dizziness, headache, tiredness, nausea, unconsciousness, cessation of breathing.

# Delayed and immediate effects as well as chronic effects from short and long-term exposure

Eyes	Irritating to eyes.
Skin	Harmful by skin absorption. Contact causes skin irritation. Prolonged skin contact may defat the skin and produce dermatitis.
Inhalation	Harmful by inhalation. May cause irritation of respiratory tract. Inhalation of high vapor concentrations can cause CNS-depression and narcosis.
Ingestion	Harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Ingestion is not an anticipated route of exposure for this material in industrial use.
Sensitization	No information available.
Repeated dose toxicity	In humans, styrene may cause a transient decrease in color discrimination and effects on hearing. Repeated or prolonged exposure may cause skin irritation and dermatitis, due to defatting properties of the product. May cause damage to the kidneys, liver, eyes, brain, respiratory system, central nervous system through prolonged or repeated exposure if inhaled.
Mutagenic effects	Styrene has given mixed positive and negative results in a number of mutagenicity tests. Styrene was not mutagenic without metabolic activation but gave negative and positive mutagenic results with metabolic activation.
Carcinogenicity	
<u>Styrene</u> ACGIH IARC NTP <u>Cobalt compounds</u> IARC	Group A4 - Not classifiable as a human carcinogen. Group 2B - Possibly Carcinogenic to Humans Reasonably anticipated to be human carcinogen Group 2B - Possibly Carcinogenic to Humans
Legend	IARC - International Agency for Research on Cancer NTP - National Toxicology Program ACGIH (American Conference of Governmental Industrial Hygienists)
Reproductive Toxicity	No information available.
Neurological Effects	No information available.
STOT - single exposure	No information available.
STOT - repeated exposure	No information available.
Target organ(s)	Liver, Kidney, Central nervous system (CNS), Respiratory system.
Aspiration Hazard	No information available.
Numerical measures of toxicity - Product Information	
Unknown acute toxicity	57.5% of the mixture consists of ingredient(s) of unknown toxicity.
The following values are calculated ATEmix (oral) ATEmix (dermal) ATEmix (inhalation-vapor)	I based on chapter 3.1 of the GHS document . 5076 mg/kg 2031 mg/kg 12 mg/L
12. ECOLOGICAL INFORMATION	

# **Ecotoxicity**

#### Styrene

otyrono

# Unknown aquatic toxicity

57.7% of the mixture consists of components(s) of unknown hazards to the aquatic environment.

# Persistence/Degradability

No information available.

#### Bioaccumulation

No information available.

#### Other adverse effects

No information available.

# **13. DISPOSAL CONSIDERATIONS**

Waste treatment methods	
Disposal Considerations	Hazardous waste. Can be incinerated, when in compliance with local regulations.
Contaminated packaging	Empty containers should be taken for local recycling, recovery or waste disposal.
US EPA Waste Number	D001 (IGNITABLE): When discarded in its purchased form, this material would be regulated under 40 CFR 261.21 as EPA Hazardous Waste Number D001 based on the characteristic of ignitability.

International Inventories TSCA Inventory Status:	All components of this material are listed on the US Toxic Substances Control Act (TSCA) inventory.
Canadian Inventory Status:	All components of this material are listed on the Canadian Domestic Substances List (DSL)
Australian Inventory Status:	This product contains only chemicals which are currently listed on the Australian Inventory of Chemical Substances
Korean Inventory Status:	This product contains only chemicals which are currently listed on the Korean Chemical Substances List
Philippine Inventory:	All components of this material are listed on or are exempt from the Philippine Inventory of Chemicals and Chemical Substances
Japan ENCS:	This product contains one or more chemicals currently not on the Japanese Inventory of Existing and New Chemical Substances
Chinese IECS:	This product contains one or more chemicals currently not on the Chinese Inventory of Existing Chemical Substances
New Zealand Inventory:	This product contains only chemicals which are currently listed on the New Zealand Inventory of Chemicals

# **US Federal Regulations**

# TSCA 12(b) - Export Notification:

This material does not contain any components that are subject to the US Toxic Substances Control Act (TSCA) Section 12(b) Export Notification requirements.

## SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical or chemicals which are subject to the reporting requirements of the Act and and Title 40 of the Code of Federal Regulations, Part 372:

Component	CAS No	Weight-%	SARA 313 Status
Styrene	100-42-5	41.9	Listed
Cobalt compounds		< 0.2	Listed

# SARA 311/312 Hazardous Categorization

Acute Health Hazard	Yes
Chronic Health Hazard	Yes
Fire Hazard	Yes
Sudden Release of Pressure Hazard	No
Successive mazaru	NO

### **Reactive Hazard**

Yes

# **Clean Water Act**

This product contains the following listed substances:

Component	CWA - Reportable Quantities	CWA - Toxic Pollutants	CWA - Priority Pollutants	CWA - Hazardous Substances
Styrene 100-42-5	1000 lb			Listed

# Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product contains the following HAPs:

Component	CAS No	Weight-%	HAPS data
Styrene	100-42-5	41.9	
Cobalt compounds		< 0.2	Listed

#### CERCLA

This product contains the following reportable quantities:

Component	40 CFR 302.4 RQ	40 CFR 355 EHS TPQs
Styrene	1000 lb	
-	454 kg	

# **Chemical Weapons Convention (CWC)**

This product contains a Schedule 3 Toxic chemical precursor.

# State Regulations

# California Proposition 65

WARNING: This material contains a chemical known to the State of California to cause cancer and birth defects or other reproductive harm. The California Safe Drinking Water and Toxic Enforcement Act of 1986 requires that clear and reasonable warning be given prior to exposing any person to this chemical.

#### Canada

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR) and the SDS contains all the information required by the HPR.
