CALS International Exchange Opportunities for Students in Applied Economics & Management

What is the CALS Exchange?

http://cals.cornell.edu/academics/international/programs/cals-exchange/

The CALS International Exchange Program comprises unique, one-to-one agreements with prestigious universities around the world. For a semester or a year, CALS undergraduate students attend one of our partner universities and in exchange, students from partner universities come to study at CALS. Nearly all partner universities in non-English speaking countries offer a wide range of courses taught in English. Many partner universities offer “crash course” language lessons, or semester long programs that cater specifically to exchange students.

The CALS Exchange Program is different from Cornell Abroad since it is administered through the CALS Exchange Office and students pay their same Cornell tuition with no additional administrative fees. This is particularly beneficial to New York State residents due to Cornell’s tuition structure. Additional expenses (i.e. housing, visa fees, airfare, food, etc.) are paid directly by the student. Some exchange programs offer scholarships or stipends. Just as with Cornell Abroad, students currently receiving financial aid will continue to receive it.

Credits earned through the CALS Exchange transfer back as Cornell credit.

Europe

Much of the higher education system in Europe has been standardized to follow a similar framework in all countries, thereby making degree standards more comparable throughout Europe. A Bachelor’s degree is generally earned in three years instead of the US standard of four. Students typically stay an additional 12-24 months to earn a Master’s degree. Some of our partners will permit you to take classes at the Master’s level, while others will not. Our students find Master’s level classes manageable, so don’t let the idea intimidate you—they can have their advantages.

European Credit Transfer and Accumulation System (ECTS)

2 ECTS Credits = 1 US Credit

AUSTRIA: WU Vienna University of Economics and Business
www.wu.ac.at/start/en
• Classes taught in English and German
• Finance, Investment and Accounting; Marketing and Management; European and Eastern European studies; Economic Policy and Trade Management
