The IT Service Group provides a number of services in support of Cornell academic and research missions. If you have any questions about the services listed below please submit an ITSG Help Desk Ticket: https://help.coecis.cornell.edu

Classroom Support

**AV and VC Support:** The ITSG can assist with video conference, av support, and recording needs

- Contact your department administrative staff for information on available rooms and features.
- Cornell utilizes the ZOOM service which is maintained by IT@Cornell. For additional information about ZOOM follow this link: https://it.cornell.edu/zoom

**Distance Learning:** The ITSG works in concert with IT@Cornell and department administrative staff to support distance learning opportunities. Please contact your department for information setting up a distance learning course.

**Schedule r25:** The ITSG provides support for College of Engineering schedule r25 rooms. Contact information is posted in each r25 room and issues can be submitted to the ITSG ticket system. Additional information on r25 rooms can be found here: CoE R25

**Additional Support:** For additional information on AV, Video Conferencing, r25, and Distance Learning support please follow this link: AV and Video Conference Support

Course Support

**Web Pages:** Information on the hosting of Course and other web pages can be found at: CoE CIS Tech Web Hosting

**Labs and Virtual Labs:** The ITSG supports the majority of Labs in CoECIS, including department sponsored virtual labs. For more information labs, please contact your embedded IT or department staff.

**Azure Dev Tools for Teaching:** (Formerly Microsoft Imagine) Cornell STEM Faculty, Instructors, Graduate Students and Majors are eligible for access to Microsoft products at: https://aka.ms/devtoolsforteaching. Enrollment is automatically uploaded prior to the first day of instruction and is re-loaded after the last day of the class add period. Students in specific classes can be added on a case by case basis as requested by Faculty Instructor. Account holders will use their "netid"@cornell.edu when prompted to log in.

**Cornell Available Software:** IT@Cornell provides information on available software and applicable licenses at the following link: Available Software

**Net-Print:** Net-Print is the Cornell supported print management solution. More information can be found here: Net-Print

Semester Startup

Prior to the start of the semester, embedded IT staff will reach out to the instructor communities to prepare labs and other resources for the upcoming classes.
