eBird APIs in Action

Tell us where and how you are using the eBird APIs

Leave a comment on this page to tell us. Please include URLs if you can.

Examples

Schmidt's Garden Center Web Site

Schmidt's Garden Center web site has a couple of custom widgets using the eBird API to highlight recent eBird observations in its locality.

Tom Auer

http://www.personal.psu.edu/mta138/flash/needs/local.swf. This is an Abode Flex app showing sightings of birds that Tom wants to see, near a particular location.

The Wildlab

With the the WildLab, an innovative science curriculum, teams of students use an iPhone, binoculars, and their brains to see their local environment in a new way. Read more in the news item...
