

# Floc Blanket Spring 09 Research Goals

## Goals for Spring '09 Floc Blanket Research

### Goals for this semester

- \*Finish running tests for floc blanket performance at low and high turbidities
- \*Test floc blanket performance with natural organic matter
- \*Design a new floc blanket system so that we can have a majority of flow go to tube settlers
- \*Build a model to characterize the mechanisms of particle removal in a floc blanket clarifier
