

Grant Database

Grant Database

Please also refer to the [International NGO Contacts Database](#) for more organizations

Grant Name	URL	Application Type	Closing Date	Comments
W.M.Keck Foundation	http://www.wmkeck.org/			Cornell University is not located in their Foundation designated states
Resource Foundation	http://www.resourcefnd.org/		Year round	Connected with Julia Love at Resource Foundation. She requested for more information on the project. Will connect to Tamar and John and request them to get in touch with APP (Resource Foundation is already working with them) to see how to proceed with the fund raising
Ford Foundation	http://www.fordfoundation.org/grants/organizations-seeking-grants			As of Spring 2010, the objective of the Foundation doesn't align with that of AguaClara
Inter-American Foundation	http://www.iaf.gov/index/index_en.asp		Year round	Spoke with the Honduran Representative at IAF. Monroe had a conversation with him as well and since AguaClara is not eligible for the grant in its current form he suggested APP continue to apply for it instead
Changemakers	http://www.changemakers.net/en-us/competitions		Varies	
JRCPF and CASE				JRCPF Programs
Environmental Sustainability	nsf.gov listing	grants.gov	February 1, 2011 - March 3, 2011 August 15, 2011 - September 15, 2011	
Research in Undergraduate Institutions	grants.gov listing	grants.gov	anytime	not sure the engineering school qualifies as a "primarily undergraduate institution" under the grant's guidelines
Research Experience for Undergraduates	NSF program description	grants.gov	August 24, 2011	This would be an application to become an REU site. Cornell has a number of these already, it might be helpful to talk to their directors, their information is available on the website.
International Research and Education: Planning Visits and Workshops	NSF program description	grants.gov	2/20 5/20 9/20 (annually)	provides funds for travel expenses
International Research Experiences for Students	grants.gov listing	grants.gov	2/15 9/15 (annually)	
Rolex Award for Enterprise	rolex awards site	on website	app. for 2012 available in mid. 2010	Application is by individuals... you also get a rolex.
Research Grant for Developing Country Scientists	program description	send proposal to organization	12/31 6/30 (annually) 6-7months for result	APP may be interested in this. I don't think it could be used to construct plants, but may be applicable for further research about the impact of the plants on water quality, health, etc.
Water Credit Grant/Loan	http://water.org/projects/honduras/	no info		Financing for community-based water projects through a combination of grants and loans. Has funded projects in Honduras previously. Website does not describe application process. APP may want to contact the organization to ask for further information.
International Financial Assistance Projects Sponsored By the Office of International Affairs	Program Description	contact EPA Grants Administration Division	Unsolicited proposals before 5/15 FY Competitive awards DL must contact OIA	This announcement is really confusing, but it mentions as one of its objectives "International Capacity Building (water safe to drink)"... there may not currently be grants offered in that area, but I think it would be worth keeping an eye on, and maybe enquiring about to get more information.
USAID Public Private Alliance Program	http://www.usaid.gov/our_work/education_and_universities/basic-ed/pp-alliance.htm	grants.gov	submit concept paper to Honduras mission (further interest reply within 60 days)	This program looks really interesting. They recommend interested applicants contact the mission first to make sure the project is in line with the missions objectives before submitting a concept paper. It requires "resource leverage" on a 1:1 ratio... at least some of which must be in cash. We would need to specify exactly what our resources are, i.e. technical expertise, knowledge, service hours, etc.
W. K. Kellogg Foundation	http://www.wkcf.org/grants-for-grantseekers.aspx	Online Application	Year- round	
Patagonia Environmental Grants Program	http://www.patagonia.com/us/patagonia.go?assetid=2927	Best option- go to store	Year- round	They say the best way of getting the grant is to go to the nearest Patagonia store, which is unfortunately in NYC. There are also a couple qualifying descriptions which AguaClara does not completely fulfill, but might be able to be evaded.
EPA's P3 Grant	http://www.epa.gov/ncer/p3/apply/index.html	Grants.gov	Opens in Aug /Sept, closes after 3-4 months annual	One of the design teams has received this grant in the past, three teams are submitting applications in Fall 2010.

Foundation Database

Foundation	URL	Relevant Areas of Interest	How to Initiate Application	Comments
------------	-----	----------------------------	-----------------------------	----------

Nestle Waters for America				María Jesús Carluccio (mjcarluccio@gmail.com) was a wife of a student in the class during fall 2009. She initiated a \$500,000 nestle grant with Monroe.
WaterPartners International	http://www.water.org/	grants and micro-financing for water projects	organizations in developing countries can contact WPI for consideration as a partner organization	May be interested in partnering with APP to fund plant construction
List of Local Foundations	Foundation finder link	Foundations located in the Ithaca area	N/A	Some of these organizations may be interested in supporting AguaClara, a lot of them look like they have links to Cornell.
Richard and Rhoda Goldman Fund	foundation site	environment	letter of inquiry	Though the funding priorities listed on the website do not mention international water projects, they recently funded several water project in Africa and India in a partnership with WaterPartners International.
Bill and Melinda Gates Foundation	special initiatives description	global development, global health	periodically issue RFP's	has a water, sanitation and hygiene "special initiative"
Rainbow World Fund	organization's "water" page	safe water and sanitation	unclear, site doesn't mention grants, just "partner organizations"	Currently involved in a water project in Las Limas, Honduras, partnering with Water Partners International. May be interested in working with APP?
Lindbergh Foundation	http://www.lindberghfoundation.org/	environmentally responsible technology, water resources, health	application available online	is not currently involved in any water projects, but AguaClara seems to be in line with the organization's interests
Water 1st International	http://water1st.org/index.html	provides grants to community water projects, supports projects in Honduras	contact information is on website	this may be a good organization to network with, they may be interested in partnering with APP
Ansara Family Foundation	foundation directory listing	poverty eradication in developing countries, water and sanitation, microfinance	letter of inquiry, deadlines 1/15 & 9/15 annually	more information is available through the cornell foundations directory
