

# Summer 2010 CDC Research

## Summer 2010 CDC Research

A [Detailed Task List](#) was created to lay out the planned research for the CDC team for this summer.

[Reflection Report I](#) provides a brief history of the evolution of the Chemical Dose Controller along with a detailed description of the planned research.

[Reflection Report II](#) describes and analyzes the results of the team's research with Legris polyamide push-connect caps.

[Reflection Report III](#) describes and analyzes the results of the team's research with two types of in-house manufactured brass orifices (SAE Flare Caps and Refrigerator Tubing Endcaps) and one type of off-the-shelf brass orifice (Carburetor Jets).

[The Final Report](#) relates the progress and results of the Summer 2010 CDC Team's research and provides a general guideline of research recommended for future CDC Teams.
