

# Current Special Annex Projects- August 2010

## Engineering

15,000 vols (approx) this Fall from central campus via Google will be transferred to the Annex. Planning in place for the project beginning in May 2011 to transfer 160,000 vols to the Annex

## Fine Arts Library

Cleanup continues from the move of 78,000 volumes. Concerns over use of a collection with high circulation

## Hotel

Annex is ingesting 1-2 tubs per week

## ILR

Annex is ingesting 1-2 book trucks per month

Temporary move housed in Old Annex needs to be de-duped and moved to permanent storage.

## Law Library-

Meeting scheduled for third week of August to determine their needs

## Mann Library

Potential collection moves to accommodate Entomology collections

## Rare and Manuscript Division

PDC Drawings- One bin per month approx. 500 drawings- approx 2 hours per bin; once the large project is completed.

CU Police - special project to move backlog of record boxes then ongoing; this was just completed, and future moves will be routed through RMC and then to the Annex.

Archival Collections- Up to 100 boxes per month

Thesis -- ongoing newly received each year.

Medium Rare transfers-- still receiving 1 or 2 boxes weekly.

## Uris Library

Duplicates and Tsinghua materials that the locations have been changed, we are dealing with and routing to LTS for record work.

## Vet Library

Senior Seminar Papers; ongoing newly received each year

## 1978 ANNEX

Withdrawing the State Libraries duplicates, compiling lists for posting, boxing for book sale and/or destroying serials.

Slicing and Dicing of the Phy. Sci. & Engr. duplicate serials that were withdrawn.

Newspapers moved from Olin B52 need to be barcoded and moved into permanent storage, now that a decision has been made to be transferred to Medium Rare.

## Future Planning

### Asia Curators

They are interested in an Annex move and the discussions are underway.

- There have been no serial cancellations
- Have interest in setting up an ongoing quota to relieve tight areas in the stacks.
- Selectors want to review pick lists.
- Resistance to split serials and sending later years to the Annex.
- Will review lists of titles that are also available online

## Google digitization project

For Google Phase 2 (Eng, Vet, Math) pulling and reshelving 63,620 vols from Library Annex
