

amk283

I joined the AguaClara team freshman year after taking the Intro to Water Treatment class (ENGRI 1131) in the fall. Projects I worked on:

Spring 2010: Began reorganizing and redesigning the wiki interface.

Fall 2010: Finished up the new wiki layout, represented AguaClara at the Interdisciplinary Sustainability Student Summit in NYC, and led the new PR team.

Spring 2011: Leading the Public Relations and Design Tool Interface Update teams.
