## CIT's Technical Point of View of Workday's implementation

This space is CIT's Point of View of the implementation of Workday. It is The Repository for all documents related to the assessment and ultimate deployment of Workday for Cornell that CIT is concerned with. Other documents related to Workday will be found in the Workday project repository managed by HR.

## Executive Summary

Summary level information.

- [Presentations](#) — A set of executive oriented presentations on Workday.
- [Tasks and Estimates](#) — The high level master list of IT tasks and their estimates.
- [Workday Overall Context Diagram - phase 1](#) — Workday illustrated with all other systems at a very high level.

## Impact Assessment as of June 2011

All impact assessments from reporting and data warehouses, to business functions supported by PeopleSoft to Netid Provisioning to Integration oversight.

- [Business process and application impacts](#) — All application specific impacts and impacts to the business processes those applications support.
- [By numbers](#) — A summary in numbers of the impact of Workday.
- [Meeting Minutes](#) — Meeting minutes related to discovery of information.
- [Technical Impact](#) — Assumptions, tasks, open questions, diagrams, lists and other documents gathered to support the impact assessment.
- [Workday Context diagrams](#) — Basic integration diagrams. See additional technical diagrams here <https://confluence.cornell.edu/label/WRKDAYTCHPOV/technicaldiagram>.

## Integration Planning and Estimating Workshop October 2011

Agenda, notes, and outcome of the 3 day workshop at Cornell in October 2011.

- [Agenda](#) — Hour by Hour agenda, including goals, topics, room locations and participants for the workshop.
