## **Cornell Food Safety and MQIP Lab Protocols**

This page contains the <u>internal</u> lab protocols of the Cornell Food Safety Laboratory. These protocols are available for use to others, but there are no implied guarantees or assurances as to the validity of these protocols. For any questions about these protocols, please contact Samuel Reichler at sjr267@cornell.edu.

Below is a list of child pages where you can access current Cornell Food Safety protocols as PDF copies. Word documents are also available upon request.

If you choose to use any of these protocols, please contact Samuel Reichler (sjr267@cornell.edu) for appropriate reference.

**In-Progress Protocols** 

- 1-In vivo studies
- 2-Bacterial Growth & Preservation Protocols
- 3-Bacteriophage Protocols
- 4-Commercial SOPs & Laboratory for Molecular Typing (LMT)
- 5-General Lab Manuals, Maintenance & Safety SOPs
- 6-Microbial Detection & Isolation Protocols
- 7-Milk Quality Protocols
- 8-Molecular Biology Protocols
- 9-Food Microbe Tracker
- 10-Tissue Culture Protocols
