

# Portal Service Disruptions

| Date          | Description  | CCAB                      |
|---------------|--|---------------------------|
| 8/26<br>/2011 | Outage due to update to SSL cert on ad3; switched to ad4 and restarted   | <a href="#">artf34945</a> |
| 8/14<br>/2011 | The my.cornell.edu Apache instances were restarting every time puppet ran. This behavior was introduced by the work done Friday 08/12 AM for CCAB artf34637. Discovered and corrected 8/14 | <a href="#">artf34708</a> |
| 7/13<br>/2011 | Content wasn't rendering due to cfp-isinf being down which meant that persistence wasn't working.  | <a href="#">artf34113</a> |

|

|               |  |                           |
|---------------|--|---------------------------|
| 7/12<br>/2011 | Content wasn't rendering due to restart of SAN controllers | <a href="#">artf34149</a> |
|---------------|--|---------------------------|
