

PRL Website Update

PRL Website Update

Today we launched a major update for the PRL Project website. The update includes a new look and navigation as well as new content.

We have added:

- a [knowledge base](#) of all articles, math library books, and seminar presentations
- several [new publications](#)
- a formalized synthesized version of [2/3 Consensus](#)
- a formalization in Nuprl of [Moessner's theorem](#)

What do you think?

We are looking for feedback, edits and comments. Please take a moment to complete our [quick survey](#) or send comments by email to je277@cornell.edu.

Thanks!
PRL Project Team
