## Michelle Kim's Individual Contribution Page

"How many flocs can a flocculator floc, if a flocculator could floc flocs?"

### Fall 2012 Contributions

This semester I am a member of the Public Relations team. A couple tasks for the semester include finding sponsors for AguaClara and increasing on-campus exposure of AguaClara for future recruitment of members.

### Spring 2013 Contributions

I am leading the Public Relations team this semester. After participating in the team trip to Honduras, it has become clear that our main challenges for this term are to finalize the sponsorship packet to distribute to potential corporate sponsors for AguaClara and not only increase on-campus exposure of the project, but publicize AguaClara technology on a larger, more regional and national scale.
