# Dichtel

Access guidelines for CRCF staff, per Oliver, following discussion with DavidB, 1/21/13
For almost all systems, if we provide you with 24-hour notice, they can be made available for us to do work on them, including bringing them to our office (250 Baker). The exceptions are:

- Will's 2 computers (Mac laptop, iMac)- we should work directly with him.
- The two systems for which we'll have to ask you to add us to the calendar: Dichtel-ASAP (~3-day long experiments). And Dichtel-THERMO (~day-long experiments).
