

Safety's web needs

Multi-month consultation and coaching to Keane to address her web communication needs.

Safety policies

Hosted a demonstration site on our wiki for her policies:

<https://confluence.cornell.edu/x/twgGD>

If this solution proves "right", have her move items under her own wiki site. She needs to come up with a "short name", and get dept. approval (web cmt, Lenetsky, Dept. Chair, etc.)

Safety into and communications

Pointed her to CU's blog service to hold more of her info than within Chem Web's web site:

<http://www.chemistry.cornell.edu/general-info/safety.cfm>
