

Thursday 06-27-13 AL

Today is a clean hands day. We left the erg alone, and tried working with the videos we took. I'm currently trying to convert the camcorder's .MTS files into .MOV or .ATV or .MP4 so that we can open the files using the Tracker software.

EDIT: Lily and Steven have done the file conversions. They are in Box, under Photos & Videos, under 2013.06.26 Rowing Filming
