

2D Steady Conduction - Model Setup

Author: Rajesh Bhaskaran, Cornell University

[Problem Specification](#)

[1. Pre-Analysis](#)

[2. Geometry](#)

[3. Mesh](#)

[4. Model Setup](#)

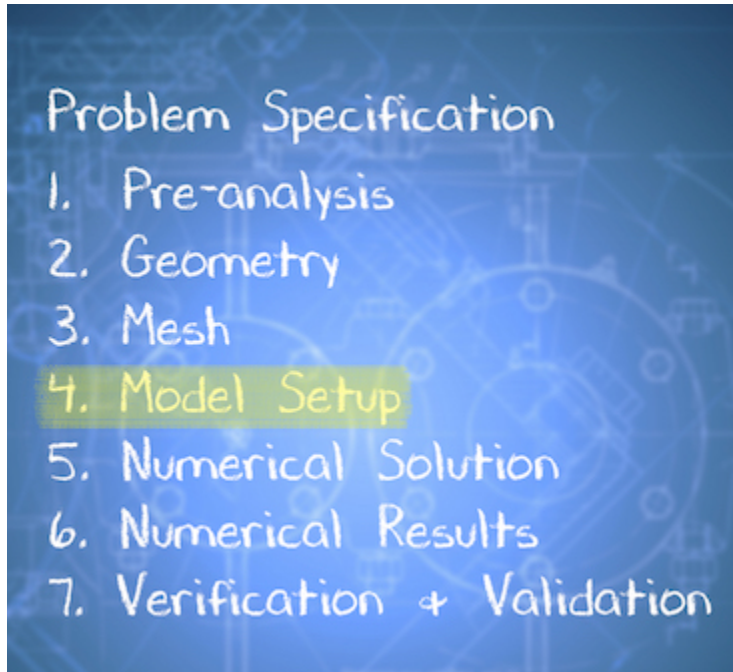

[5. Numerical Solution](#)

[6. Numerical Results](#)

[7. Verification & Validation](#)

[Exercises](#)

[Comments](#)

Define Boundary Conditions

Note

Make sure you have "Celsius" selected as the temperature unit under "Units".

[Go to Step 5: Numerical Solution](#)

[Go to all ANSYS Learning Modules](#)
