## List of lecturers who are classified as Teaching Associates

- Obtain a current list of these folks at the start of each semester from Physics Admin. These folks come and go, apparently.
  - Data point: 12/1/16: Craig stated Jim and Dave renewed for next year. And no new ones.
- Usually they only need to know how to [connect their personal laptop to a printer or two in Physics](#).
- Since they are not nominally in charge of a course (even though PhD's and senior staff), they cannot be classified as "Lecturers". As of 3/2/16, John Miner stated they are not added to Physic's people directory.

NetIT	Name	Location	Notes
jlo34	James (Jim) Overhiser	Clark 128	Has his own Mac computer - maybe repair paid for by Physics?  Undergraduate Teaching Associate head
dak13	David (Dave) Kornreich	Clark (111 or 115?)	Has his own computer.  Most info per John Miner, after I inquired (2/23/16):  Lecturer for P2213. And summer sessions.

## FYI re: Physics Linux Grad Lab contacts

- Jim Sethna (faculty) <jps6>
- Alexander Grant (3/2/15: 2nd year PhD grad) <amg425>
