Notes

- Standard web address is "x.chem.cornell.edu" where x is the group name unless otherwise noted.
- Standard allocation of space for CIT Static sites is 1GB.
- For more about the CCB sites below using CU Blogs, including links, see also:
 - [CU Blogs are great for Research Groups](#)
- CIT has this list of questions to ask web hosting vendors before you commit to them:
 - <http://www.it.cornell.edu/about/atsus/iws/resources/questions.cfm>
- For CU Blogs, can find theme by looking at page's source. Here's a Firefox example, and replace "xxxxx":
 - view-source:http://xxxxx.chem.cornell.edu/

	PhysIT redirect to ChemIT: it.physics.cornell.edu	N/A	(redirect)	(not Research)		it.physics.cornell.edu redirects to it.chem.cornell.edu

Count of Research sites	Group	Website Location	Web Administrators (CU AD Groups)	On CU Blogs (theme, date checked)	Evaluating CU Blogs	Oliver's guess on potential to move to CU Blogs	Miscellaneous notes
(Left Cornell)	Dichtel	CU Blogs		5 cornell_base, 2/26/15			12/11/17 - Dichtel had deleted CUBlog, so pointing dichtel.chem.cornell.edu to it was erroring - removed cname of dichtel.chem.cornell.edu - meh26 - New Northwestern site - http://sites.northwestern.edu/dichtel/ www.williamdichtel.com points to CUBlog - domain owned by Dichtel - Dichtel still has dichtel.chem.ucla.edu site that should be deleted Was on the <wpmu-triden> theme, which expired 7/7/15.
(Left Cornell)	Park	CIT Static	jp275,sx68,dk683			5	12/11/17 - removed cname of park.chem.cornell.edu from Static site and requested CIT delete site - asked chemweb to point to UChicago site Initial discussions to consider using CU blogs, April/ May 2014. Any decision made to actually evaluate? 6/30/15: Oliver created placeholder at CU Blogs: /parklab/

Other, non-Chemistry-related web sites

As an FYI only.

CABES

Was EMC2.

cables.cornell.edu approved by the University July 2018.

Web site to come. Was EMC2, which will still have a landing page indefinitely.

- Idea: Put a EMC2 landing page-only web site within CU Blogs. Example:
 - <https://blogs.cornell.edu/emc2/>
- Another idea: Develop CABES on CU Blogs?

Historical notes about EMC2

EMC2, as of 5/19/16: FTP permissions desired to WebDAV host: dav-em2.kproxy.cornell.edu for user: scd23. Referred EMC2 to Biotech, James VanEe.

- From Nina Piccoli, Operations Manager, Ancient Wisdom Productions (AWP), via Suzanne.
- emc2.cornell.edu (resolves with extraneous "www.", FWIW)
