Panapto

Must get application through Blackboard. ChemIT staff have a course established just for this purpose.

These instructions are mostly for ChemIT.

http://blackboard.cornell.edu/

To download Panopto applications (PC, Mac), look under "Tools" (to the left).

The quickest way to get Panopto would be for you to create your own course in Blackboard. Anyone can do this. Goto the following website: request. blackboard.cornell.edu. It will take you through the process of making an empty course shell.

- First logon to Blackboard with your NetID
- "Tools" is located under the "Chemistry IT Testing 101 (ChemITtest101-Hint-Fall2014) course; ensure that menu is expanded (down arrow showing).
- In "Tools", click on "Panopto Focus Content".
- On that "Panopto Focus Content" page, at the end of that section, see section "Links", and "Download Panopto Focus Recorder downloads for Windows and Mac.".
