

Erika Axe's Individual Contribution Page

My name is Erika Axe. I am currently a junior undergraduate

graduate in Environmental Science & Sustainability within the College of Agriculture & Life Sciences here at Cornell. My concentration is in Land, Air & Water Resources (LAWR). I have been on the AguaClara Team since the Fall of my freshman year (2014) and have been involved with the Public Relations Subteam since Spring 2015.

For a more in-depth biography please check out my LinkedIn page [here](#).

If you have any questions or need to reach out to me, please feel free to contact me at ena7@cornell.edu

Semesterly Work:

As of the **Spring of 2017**, I am the Research Advisor for the [Public Relations Team](#) in AguaClara (with PR team members Julien Morgan, Ken Rivero-Rivera, and Ashish Sangai). Responsibilities and tasks for this semester include organizing team events, recruitment, SAFC budget application, writing and publishing AguaClara newsletters, publicity, apparel and poster design, social media administration, fundraising, networking, facilitating team collaboration, planning and organizing World Water Week and for being a public team representative

In the **Fall of 2016**, I was the Research Advisor and member for the Public Relations Team in AguaClara (with PR team member [Andrew Kang](#)). Responsibilities and tasks for this semester include organizing team events, recruitment, SAFC budget application, writing and publishing AguaClara newsletters, publicity, apparel and poster design, social media administration, fundraising, networking, facilitating team collaboration, and for being a public team representative

In the **Spring of 2016**, I was the co-head for the Public Relations Team in AguaClara with my partner [Rachelle Ng](#). Past work for that semester include organizing team events, recruitment, SAFC budget application, writing and publishing AguaClara newsletters, publicity, apparel and poster design, social media administration, fundraising, networking, facilitating team collaboration, and for being a public team representative

In the **Fall of 2015**, I was the co-head for the Public Relations Team in AguaClara with my partner Isabella Yang. Past work for that semester includes organizing team events, recruitment, publicity, apparel and poster design, social media administration, fundraising, networking, facilitating team collaboration, and for being a public team representative.

In the **Spring of 2015**, I was the co-head for the Public Relations Team in AguaClara with my partner [Bridget Cheng](#). Past work has included creating competition videos, merchandise sales, team representation, event planning, social media coordination, etc.

In the **Fall of 2014** I studied photovoltaic pump systems within the [Village Supply Team](#) of AguaClara. Specifically, I have researched information about pump availability and solar arrays as well as alternatives to the existing setups of these arrays. I worked alongside my partners [Qingqing Gong](#) and [Angie Wang](#) to create a Literature Review, Detailed Task List, and final Research Report throughout the Fall 2014 Semester. You can find my roles and my subteam's progress and operations as well as our final report and data at this link: [Village Supply System](#) under Fall 2014's PV/Pump Subteam Task List.
