# Home

Lessons Learned Working Group

The Lessons Learned Work Group was facilitated by Stephanie Herrick and Butch Labrecque and was made up of project managers who are interested in improving the way Lessons Learned (as a methodology construct) are done at Cornell.

The Work Group defined its own charge, approaches, and expected deliverables.

Session 1 took place 09/30/08 from 10-11:30 at the Maplewood Community Center. Other follow-up sessions followed, with the final wrap-up session taking place on 08/04/09. Click the child page links below for additional information.

Please browse this this space and benefit from the Work Group's success and deliverables!
