AguaClara is dedicated to designing affordable community-owned water treatment systems that may be implemented worldwide. We provide, free of charge, our web-based design tool and the accompanying information to qualified regional or national [implementation partners](#) who provide design/build/operate/train/transfer services. To ensure quality implementation we provide engineering support, design customization, performance monitoring, and certification. Prior to implementation of any AguaClara technologies, please contact AguaClara [Design Experts](#) to learn about our engineering support services.

In no event shall [Cornell's Center for Technology Licensing](#), Cornell University, or their employees be liable to any party for direct, indirect, special, incidental, or consequential damages, including lost profits, arising out of the use of work and its associated copyrights, even if [Cornell's Center for Technology Licensing](#) or Cornell University may have been advised of the possibility of such damage.
