

Workday URL bypassing HR page

https://hr.cornell.edu/workday_redirects/login_workday.html

Why the need

When the CU Blogs service is down, one of the sites that becomes unavailable is the normal Workday site, <<http://workday.cornell.edu/>>. It is still possible to log in to Workday by visiting the above URL.

Or even more directly, can also try:

- <https://shibidp.cit.cornell.edu/idp/profile/SAML2/Unsolicited/SSO?providerId=http://www.workday.com>

A very few examples of when it has been down:

- For about 40 minutes on 3/15/16 <<http://www.it.cornell.edu/services/alert.cfm?id=4250>>
- For over 2 hours (2:07-4:13pm) on 12/8/16 <<http://www.it.cornell.edu/services/alert.cfm?id=4090>>
- For an hour or so on 8/24/15 and 3/15/16), the direct URL at the top of this page can be used to get to Workday. As can the following URL:

The normal way

Here is the normal way to get to Workday is via a CU Blogs-hosted web page:

- <http://workday.cornell.edu/>
