

Physics web site

A&S Communications group is helping to support the site's content, with back-up from CIT if necessary. Barry hosts the infrastructure, as a favor, until the site is migrated to A&S's up-coming Drupal infrastructure.

Other info

- Site is expected to migrate around the summer or fall 2016 (as of summer 2015).
- PhysIT is available to consult, if desired after Physics Admin staff get primary information from A&S Communications.
