

Chemistry Lyris Mailing Lists

All lists emails end in @cornell.edu.

Lists are moderated

- Messages to the list from members and non-members are moderated unless the sender has rights to send without moderation
- Note for Oliver only - (There is one "HR" list that needs a setting change to make this true!) - fixed chemstaff and chemvissci to require moderation 5/11/2017 meh26

Ownership of chemfac, chemstaff, chemacadstaff, chempostdoc, and chemvissci as CIT knows it is Kevin Ashman, but all decisions about a list should go to the owner as limited below, not Kevin. This is per discussion with Michael Lenetsky on 5/8/2017.

Key to columns

- **Admin: Add/remove** means you have full access to the [Administrative Web Interface](#), and agrees to limit your changes to add/remove members and to NOT change ownership or submitters
- **Admin: Settings** means you have full access to the [Administrative Web Interface](#), agrees to NOT add/remove members but does make setting changes (owners, submitters) upon the request of the owner and serves as primary technical support for the list.
- **Receive** is only noted for exceptions to the general (presumed) population of the list.

	Lyris list / user	Admin: Add /remove	Admin: Settings	Message approval	Send message without moderation	Receive (if not already list member)
NetID-based owner=>	chemfac-I (jmb40)					
Tech and Submitter	chemit		x		x	
Owner:	chemchair	x		x	x	(Joyce to decide if receiving, instead of receiving using her's and Francine's own NetIDs)
Owner:	kda1	x		x	x	
Submitter	chemhr				x
