Users must have a Confluence account

- Those who have not ever logged into Confluence will not be in the Confluence group until they log in to Confluence for the first time and until the next 2:30 am synchronization has run.
 - In other words, there can be a delay of a fraction of a day between when the user establishes a Confluence account and when they will be added to this group.

The page below is restricted to Cornell Active Directory group <permit-as-chm-people-all> who already had Confluence accounts. That group will be populated annually. The last upload contained the following NetIDs:
