

Metadata Working Group 2016-2017

Find here a list of Metadata Working Group dates for the 2016-2017 year for planning purposes.

This year, we're approaching the Metadata Working Group in a slightly different manner. Instead of a series of invited speakers, we are aiming to foster a collaborative, working space for metadata issues across the Cornell University Library system. This means workshops, working sessions, and we hope, deliverables from the Metadata Working Group in this academic year. So many of these meetings will be used for workshops or working session style events.

Dates, Times, and where known, Locations for this year's Metadata Working Group meetings:

- September 16th (Kroch Library 2B48 RMC Lecture Room, 1:00-2:30 PM)
