

# Tuesday, November 1, 2016

**Tuesday, November 1, 2016 9-11:30am Mann Library Seminar Room 160**

**Contacts for this meeting:** [Marcie Suzanne Farwell](#) + [Christina Harlow](#)

**About:** First of the working group type meeting of the semester. In Mann Library Room 160.

This is going to be a real working group session where we map our metadata ecosystem – this came out of conversations with folks about how do we know what metadata is where and to start getting folks to realize (and use!) the metadata that exists outside of their particular silo.

So bring your laptop and be prepared to talk about the kinds of metadata you're collecting, how you're collecting it, and where it lives. We'd love to have as many departments and range of metadata standards represented as possible.

The session is open to everyone, and we hope to see everyone at Mann on November 1, 2016! All are welcome.

## Agenda Items
