Jeremy's Individual Contribution Page

Spring 2017 Contributions

This is my first semester working with AguaClara. I am a junior Communication major, and my role within AguaClara is as the team's webmaster, as part of the Public Relations subteam. As webmaster, my primary goals are to revamp the website. Specifically, I hope to make a website that is more organized, that is mobile-friendly (responsive design), and is audience-focused.

This semester I have updated the AguaClara website, created a Website Manual for future webmasters, and taken and edited headshots for team members.
