Instructions

When moving files within the Cornell fileshare space, Windows warns that it is not from a trusted source. To remove this warning and trust everything on the cornell.edu network, follow these steps:

1. Start Menu > type **Internet Options**
2. Select **Security > Local intranet zone**
3. Click **Sites > Advanced**
4. Enter "\\cornell.edu"
5. Make sure '**Require server verification...**' is unticked
