TeamViewer

People have reported successfully using TeamViewer to access their non-Cornell (personally purchased) computer from off-campus when their computer was on eduroam (Cornell wireless service).

Staff

- Please instead contact Chemistry IT. Thank you.

Grad students, etc

This information is mostly of value to graduate students and PostDocs using their own laptops or desktops in their Cornell lab.

FYI, a cut-and-paste on 5/15/2017:

Remotely Control Your Devices – Free for Personal Use:
