

Caller ID to off-campus phones

Campus phones default to not providing CallerID info for off-campus calls. This can lead to phone calls not being picked up because they are not trusted.

Tip

- Dial **118** before the 9 when calling off-campus. Then your CallerID info will be provided.
 - Works for local and long-distance calls. (On-campus calls already get the CallerID info.)
 - This is required call-by-call.

Idea

9/8/17: Oliver wants the Chemistry department to consider changing this default at the departmental level.
