-

OS Updates

- Check for OS updates through the App Store
 - This will also have updates for software such as iTunes and Safari
 - Keep checking for updates after restart until no updates appear

Common Software

Adobe

- **Acrobat**
- **Creative Cloud**
 - Version 2018, as of 1/18/2018
- **Flash**
 - System Preference Flash Player Updates Check now

Chrome

- Menu Help About Google Chrome Checks to see if running most recent version of Chrome

Firefox ESR

- Menu Options Advanced Update
- Browser plug ins (Silverlight, flash, etc.)
 - <http://www.mozilla.org/en-US/plugincheck/>

Java

- ONLY if installed
- Through the Java control panel in System Preferences

Microsoft

- **Office**
 - Run Microsoft Office Updater
 - See: Mac Adding/Removing programs for upgrade to MSO 2016
- **SCEP**
- **Silverlight**
 - If not signed: System Preferences Security and Pivacy "Click the lock to make changes" Allow apps downloaded from Anywhere
 - Keep as allow from Anywhere
