Configure SSO for a vendor

More and more vendors are able to integrate with our SSO to give quick access to their services to alumni and staff.

Step-by-step guide

1. Share the Shibboleth at Cornell page with the vendor; it is a good introduction.
2. Request the Shibboleth integration on behalf of the vendor at https://shibrequest.cit.cornell.edu. We need a contact name and email address in order to complete this form.
3. Request a sponsor NetID through Lisa Stensland (lisa.stensland@cornell.edu). She will need:
   a. Contact name
   b. Contact email address
