

# Install & mount a local Mountain Duck server

Mounting a server on a local computer - using Media3 accounts (see [Add/manage accounts for Media3 access to edit websites](#))

## Install Mountain Duck & configure "bookmark"

This first part can only be done by someone with an administrator password to the local machine.

1. Go to <https://mountainduck.io/> and choose appropriate download.
2. Double click on the license.

The second part is connection instructions.

1. Make sure the dropdown list at the top is "WebDAV (HTTPS)"

The screenshot shows a Windows-style dialog box titled "WebDAV (HTTPS)". At the top, there is a dropdown menu that is highlighted with a red circle; it currently displays "WebDAV (HTTPS)". Below this, the dialog contains several input fields and options:

- Nickname: WebDAV (HTTPS)
- URL: <https://>
- Server: (empty text box)
- Port: 443 (with up/down arrows)
- Username: (empty text box)
- ☐ Anonymous Login
- Client Certificate: None (dropdown menu)
- Path: (empty text box)
- Drive Letter: Auto (dropdown menu)
- Mount Options: ☐ Read only

At the bottom right, there are three buttons: "Connect", "OK", and "Cancel".

- a.
2. Enter the other info in the appropriate areas

aad-alumni-test-19938.cornell.media3.us - WebDAV (...)

WebDAV (HTTPS)

Nickname: aad-alumni-test-19938.cornell.media3.us - WebDAV (HTTPS)

URL: https://djm6%40aad-alumni-test-19938.cornell.media3.us@aad-z

Server: aad-alumni-test-19938.cornell.media3.us Port: 2078

Username: djm6@aad-alumni-test-19938.cornell.media3.us

☐ Anonymous Login

Client Certificate: None

Path:

Drive Letter: Auto

Mount Options: ☐ Read only

Connect OK Cancel

- a.
3. Leave these areas as is.

aad-alumni-test-19938.cornell.media3.us - WebDAV (...)

WebDAV (HTTPS)

Nickname: aad-alumni-test-19938.cornell.media3.us - WebDAV (HTTPS)

URL: https://djm6%40aad-alumni-test-19938.cornell.media3.us@aad-z

Server: aad-alumni-test-19938.cornell.media3.us Port: 2078

Username: djm6@aad-alumni-test-19938.cornell.media3.us

☐ Anonymous Login

Client Certificate: None

Path:

Drive Letter: Auto

Mount Options: ☐ Read only

Connect OK Cancel

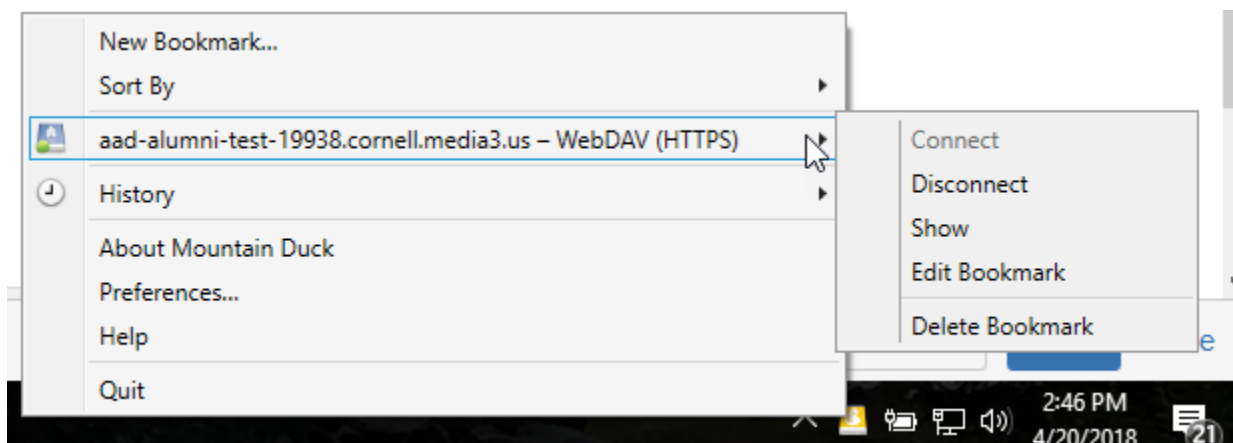

- a.
4. The first time connecting a box will pop up asking for the password.  
Enter the password to complete the connection.

## Manage Mountain Duck & "bookmarks"

To connect/disconnect, edit/delete bookmarks (connections) select the Duck icon in your tray

Select the bookmark and then select what action you want to take

As you can see you can also quit the program which will cause the Duck icon to drop from the tray.
