Agenda

Time	Topic	Description
9am-12pm	AWS GameDay	AWS GameDay throws you into the world of the Legendary Animal Rental Market as an employee of one of Silicon Valley's most beloved start-ups, Unicorn Rentals. You'll take part in an interactive, team-based exercise, designed to allow you to learn AWS (and put your knowledge to the test!) in a gamified, risk-free environment. Learn through collaboration as we step outside the boundaries of typical workshops with open-endedness and ambiguity. There is no one right answer; the path you take is up to you and your team. Use the resources at your disposal in pre-packaged AWS accounts.
