

Daily Check Instructions

Before being able to use the Daily Check application, you must contact CNF Director of Operations, Ron Olson.

Once authorized to use the application, Cornell NetID users can begin use. CNF GuestID users will need to create an account in the system with their email address.

GuestID Account Set Up Instructions

1. You will have received an email directing you to begin use of the Daily Check application.
2. Go to the [Daily Check webpage](#).
3. Click the blue "Daily Check" button
4. Click "Guest Login"
5. Click "Create a new Guest account"
6. Fill in your name, the email address you gave for access to the Daily Check application (this is probably the same email address you use with your GuestID), and a password of your choice.
7. Your account will be created - follow any additional instructions to confirm your account and you will now be able to login to the application with your above email address and above password.
