

# WP CLI get list of tags and categories of WP site

## Get all categories on alumni

```
terminus remote:wp cornell-alumni.live -- term list category --fields=term_id,term_taxonomy_id,name,slug,description,parent,count --format=csv > alumni-live-categories.csv
```

## Get all categories on giving

```
terminus remote:wp cornell-giving.live -- term list category --fields=term_id,term_taxonomy_id,name,slug,description,parent,count --format=csv > giving-live-categories.csv
```

## Get all tags on alumni

```
terminus remote:wp cornell-alumni.live -- term list post_tag --fields=term_id,term_taxonomy_id,name,slug,description,parent,count --format=csv > alumni-live-tags.csv
```

## Get all tags on giving

```
terminus remote:wp cornell-giving.live -- term list post_tag --fields=term_id,term_taxonomy_id,name,slug,description,parent,count --format=csv > giving-live-tags.csv
```
