Security Scan Archive

All sites are scanned once a year according to the scan schedule, any necessary fixes are made and the scans (first and final) are archived for 2 years in addition to the current year.

Archived:

Go to https://cornell.app.box.com/folder/102259894267?s=jeekdk83wpvrwe9daeu3aniyvlg9v70s

Scans are sent through Cornell's dropbox https://dropbox.cornell.edu/ and downloaded to local computer.

One folder for each year

- As the scans are done for each app or group of apps add them in a new folder in the the appropriate year
- Any exceptions or false positives are documented and added to the correct folder

A folder for "Old Exceptions & False Positives"

- copy of the exception/false positive is also added to the "Old Exceptions False Positives" folder

One "All Exceptions Links" page that lists any exceptions/false positives

- Add a link of any exceptions/false positive notes to this document

Each scan set are placed in a folder named for the site or bundled sites.

Security Scans > 2021 Scans > **aadReporting SPI**

Name

Connect_AAD-new2021-13-0114-54-28PM.zip

Testconnect security scans exceptions.docx

FIRST-Connect_AAD-new2021-02-0209-00-00AM.zip

FINAL-AAD_connect_cr_ack-only2021-22-0209-44-00AM.zip

FINAL-Connect_AAD-new2021-16-0213-51-18PM.zip

Each scan in the folder has "FIRST" or "FINAL", if there is no label on the scan they can be ignored

- If it is a new year a new folder is added and the oldest folder should be deleted
- All scans are then removed from the computer they were downloaded on and Recycle bin emptied
