

Cornell University Library Journal Hosting

Program description

[Cornell University Library](#) (CUL) provides a journal hosting service, at no cost to users, in order to facilitate scholar-led journal publication. In doing so, we support Cornell University's mission to discover, preserve, and disseminate knowledge and creative expression.

For [eligible journals](#), we offer hosting on the [Open Journals Systems](#) (OJS) platform. Other journals, conference proceedings, books, and publications not meeting criteria for hosting on OJS may be eligible to use [eCommons](#), Cornell's open scholarship platform.

[Contact us](#).

Hosted journals

- [Cornell Real Estate Review](#)
- [The Cornell Diplomat](#)
- [The Cornell International Affairs Review](#)
