

# LDP Ad Hoc Report SQL Query Directory

This is a list of ad hoc reports used to retrieve data from the CUL FOLIO LDP reporting database system. Ad hoc reports are different from canned reports in that they are specialized, "one-off" reports. These reports are typically designed for specific units, purposes, etc.

All Ad-Hoc Reports				
Link to SQL Query	Last Updated	Report Name	Description	Setup
<a href="#">AHR100</a>	12/15/21	New and Noteworthy	This reports lists all 'New and Noteworthy' books (where the call number prefix ='New and Noteworthy'.  NOTE: There are no filters for this report, dates are hard-coded. Adjust loan_date at end of query in order to run this query correctly.	jl41, vp25
<a href="#">AHR101</a>	12/15/21	Nestle Inventory	List all inventory in Nestle that is non-book, such as laptops, equipment, etc.  NOTE: This query can be adjusted for other libraries. There are no filters. Adjust library name at end of query.	jl41, vp25
<a href="#">AHR102</a>	12/17/21	Collection growth over time	This query finds a specified collection (in this case, the QC and QD collection) and the record created date for all the items in the collection, so that the collection in that range can be analyzed. NOTE: The record created date is only available from the historical voyager records, and this field has to be brought in as a local table and then matched to the Folio records.	jl41, vp25
<a href="#">AHR103</a>	4/27/22	bd_with_annex	Script is looking for records that have note_type_name 'Bound with item data' and not have item record created for that holding. Then it matches on an item with a matching barcode. If there is a matching item record then it looks at the parent item permanent_location which should be an "annex" location	np55
<a href="#">AHR104</a>	4/27/22	OKU materials by LC Class and year acquired	Finds the last five fiscal years (7/1/16 - 6/30/21) of newly acquired items in OKU (Voyager data). Groups by LC class, bib format, year acquired, number of volumes and total checkouts.	jl41
<a href="#">AHR105</a>	08/03/22	ILR Kneel Collection clean up	Gets the data for certain collection and puts subjects by column.	
<a href="#">AHR106</a>	6/8/22	east_asia_lang_subject	This report provides a list of titles for east Asia languages and subjects along with different formats.	np55
<a href="#">AHR107</a>	7/29/22	item_level_details_with_circ_count	This report provides item-level details as well as total circulation counts (Voyager and Folio) for items based on location, LC class, LC class number, or title filter.	jl41, vp25
<a href="#">AHR108</a>	7/29/22	summary_circ_counts_with_subject_level_details	This report finds the summary of the number of volumes, the primary subject heading, pub date, year acquired and total circulation counts (Voyager and Folio) for all titles based on an LC class and/or location filter.	jl41, vp25
<a href="#">AHR109</a>	7/29/22	mann_bee_collection_by_century	This query finds all items in two specific call number ranges related to the study of bees, located in Mann Library (all locations), Mann Annex or Geneva. It shows the century of publication. (Specialized ad-hoc report, created for a collection analysis project.)	jl41, vp25
<a href="#">AHR110</a>	7/29/22	mann_bee_collection_group_and_sum	This query first finds all Mann Bee Collection items (see AHR109 for detailed description), then groups them by various fields (LC Class, Class Number, primary subject heading, century of publication, language, etc.) and counts the number of items in each group.	jl41, vp25
<a href="#">AHR111</a>	7/29/22	voyager_purchases_by_fund_code	This query finds all Voyager purchases by fund code, order type and fiscal year.	jl41, vp25
<a href="#">AHR112</a>	12/16/22	patron_purchase_requests_Folio	This report was created specifically for collection development needs and includes the following fields: requestor netid or other requestor information (where available), fiscal year of payment, title, instance hrid, subject, fund code, days until fulfilled, and total circ count in Folio.	jl41, vp25
<a href="#">AHR113</a>	12/16/22	patron_purchase_requests_Voyager	This report was created specifically for collection development needs and includes the following fields: requestor netid or other requestor information (where available), fiscal year of payment, title, instance hrid, subject, fund code, days until fulfilled, and total circ count in Voyager.	jl41, vp25
<a href="#">AHR114</a>	1/6/23	microforms_counts_details	This query was developed for the 2023 Olin Basement move project, and includes details of microform bibliographic information to help selectors make decisions about moving or de-accessioning the materials.	jl41, vp25
<a href="#">AHR115</a>	2/28/23	olin_microforms_with_circ_counts	This is the second of three queries developed for the 2023 Olin Basement move project, and includes details of Olin and Kroch microforms, including bibliographic information and Voyager and Folio circ counts, to help selectors make decisions about moving or de-accessioning the materials.	jl41, vp25
<a href="#">AHR116</a>	2/28/23	olin_microforms_with_circs_and_srs_marctab_fields	This is the third of three queries developed for the 2023 Olin Basement move project, and includes details of microform bibliographic information, srs marctab fields, and circ counts to help selectors make decisions about moving or de-accessioning the materials.	jl41, vp25
<a href="#">AHR117</a>	2/28/23	olin_microforms_with_same_titles_in_other_libraries	This query gets all microforms in Olin Library and shows which other libraries have the same titles (in any format). It includes details of microform bibliographic information, and srs marctab fields.	jl41, vp25

AHR118	3/1/23	mismatched_location s_for_Annex	This query gets item records where the holdings location does not match the item location, and one of those locations is the Annex.	jl41, vp25
AHR119	3/1/23	patron_status_check_ for_restricted_databa ses	This query checks patron status against list of users (supplied by a Library's staff member) for restricted databases. Shows department and patron group.	jl41, vp25
AHR120	3/11/23	vet_special_collections	This query finds books in the Vet Library that are located in special collections (companion animal hospital, anesthesia, etc.). Item details are included.	jl41, vp25
AHR121	4/11/23	holdings_records_wit h_bound_with_barco des	This query looks for holdings records that have bound-with barcodes in the holdings notes field, and matches the barcodes from the notes field to a list of barcodes supplied by the Annex. Then it finds all the item records associated with the matched holdings records.	jl41, vp25
AHR122	4/18/23	Olin_childrens_lit_LC _class_PZ	This query finds Olin children's literature in LC class PZ and shows title, author, year of publication and circulation.	jl41, vp25
AHR123	6/13/23	Asia items difficult to replace	This query finds all items in Kroch Library Asia locations and shows the OCLC number, year of publication and item status.	jl41, vp25
AHR124	6/13/23	Olin K monographs with no holdings at the Annex	This query gets Olin Library K call number monographs, where there are no copies at the Annex.	jl41, vp25
AHR125	6/13/23	Mann S 599 call numbers with circs since 2015	This query finds Mann S 599 items for possible transfer to the Annex.	jl41, vp25
AHR126	6/13/23	ILR Inventory	This is an inventory query that finds all items in call number range HD1 - HD30 at ILR	jl41, vp25
AHR127	6/22/23	Management and Hotel peripherals and supplies	This is an inventory query that finds Management and Hotel (Nestle) library items that show a material type of "Peripherals" or "Supplies", and includes item status.	jl41, vp25
AHR128	7/11/23	Olin and Kroch microform guides	This query finds microform guides in Olin and Kroch libraries and shows additional copies in the stacks or at the Annex. (A guide is a paper publication that lists the microforms in a set and shows descriptive information.)	jl41, vp25
AHR129	7/11/23	Voyager and Folio circ counts for specified titles	This query finds Voyager and Folio circulation counts for two titles in Olin. The information will be used to inform a cancellation decision (requested by Susette Newberry).	jl41, vp25
AHR130	7/13/23	Video Records in Africana	This query finds video records in the Africana library. Requested by Cammie Wyckoff for record cleanup.	jl41, vp25
AHR131	7/25/23	Folio patrons matched to Lexis users	This query finds Folio patrons matched by first and last name to a file of Lexis users. (requested by Suzanne Cohen, ILR). Custom field elements for College and Department are included in the results in order to help identify the correct user in the case of multiple matches in Folio.	jl41, vp25
AHR132	8/15/23	No Library Records	This query finds records that have an owning library of "No Library" or a holdings or item location of "No Library". This will be used by the Annex for record cleanup.	jl41, vp25
AHR133	8/16/23	Median Year of Publication for Print Monographs	This query finds the median year of publication for the print monograph collection. First the query identifies the set of records that met the criteria for print monograph (and that had an actual numeric publication date), then it applies the expression for median value. Requested by Adam Chandler. *	jl41, vp25
AHR134	8/31/23	music_mt_candidates _for_transfer_to_the _annex	This query finds music mt candidate for possible transfer to the annex	jl41
AHR135	10/5/23	Faculty Development in Education collection, circ usage - 2019-2023	This query finds the circ usage since 2019 for the Faculty Development in Education collection at the Vet Library (from supplied barcodes).	jl41, vp25
AHR136	11/8/23	cornell_tech_requests _by_fiscal_year	This query finds filled requests to Cornell Tech by fiscal year, calendar year and month, and ownership (Cornell or Borrow Direct).	jl41
AHR137	12/8/23	mann_print_oa_electr onic_titles	This query finds Mann items in call numbers A - E for possible transfer to the Annex. It is also used for record cleanup.	jl41
AHR138	3/12/24	Adelson_and_Adelso n_Annex_checkouts_ by_patron_group_and _fiscal_year	This query finds Adelson and Adelson Annex checkouts by patron group and fiscal year (no aggregation)	jl41
AHR139	3/12/24	asia_collections_with _umi_dissertation_ser vices_in_descriptive_f ields	This query gets bibliographic detail and circ and browse counts for Kroch Asia Collections and Asia Annex (Jeff Peterson request. It also finds a subset of asia materials that are dissertation copies and identifies Ann Arbor, UMI dissertation services notes.	jl41

AHR140	3/12/24	asia_collections_with_selected_publishers_and_circ_counts	This query finds Asia collections items for three publishers: Lap Lambert, VDM and Scholar's Press and shows the Voyager and Folio circs and browses.	jl41
AHR141	4/16/24	FAL print monographs	This query finds all print monographs in FAL stacks by LC Class and LC Class Number. It groups the books by year added to collection and years circulated.	jl41
AHR142	4/16/24	laptop_loans_by_academic_year_and_month	<p>This query finds laptop loans by library and Academic Year, and breaks it down by month, type of loan (hourly or extended loan) and type of laptop (Dell or Mac).</p> <p>The academic year runs from August 1 through May 31. The query compares the most recent two years; Nestle library is excluded.</p>	jl41
AHR143	5/8/24	Vet library barcodes matched to Folio	This query finds matches to Folio data from a list of Vet library barcodes. The purpose is to update locations for special collections items.	jl41
AHR144	5/15/24	Annex items with lost or damaged item notes	<p>This query finds Annex items with item status "Available" and item notes indicating the item was lost, billed for replacement or otherwise damaged. Query requested for Annex cleanup.</p> <p>--Query writer: Joanne Leary (jl41)</p>	jl41
AHR145	5/31/24	WorldCat_OCLC_numbers_matched_to_catalog	This query finds catalog matches to a list of WorldCat OCLC numbers, and finds Folio circulation totals by patron group. For checkouts after 2-9-23, shows the patron department and college (when that data existed in the patron record).	jl41
AHR146	5/31/24	Mann_Special_Collections_inventory_showing_holdings_in_other_locations	This query shows Mann special collections inventory with holdings in other locations.	jl41
