New Features
Circulation

- Title Level Requesting (JIRA)*
    - Access Services will be running test on Training to determin if this functionality should be turned on.

Inventory / Technical Services

-

Data Import

Finance / Invoices

Patron Records / Public Facing

Other

- **NEW** Bulk Edit Tool (JIRA)[1]
    - This functionally will not be activated at go live due to an open issue.

These items are new additions to FOLIO but require activation to be available to users.

1 - This is the first release of the Bulk Edit tool. It is currently focusing on User records but will expand to other areas of the system. The tool will have an in-app UI based tool and a more powerful csv approach.
