Reporting System Status

The LDP Production reporting database is available.

The Metadb Test reporting database is available.

Current Status of Data on LDP Production and LDP Test reporting databases:

- LDP Production reporting database -

  Nightly LDP Production reporting database data transfers from the FOLIO Production application server are stable. Data accuracy and currency is expected for all reports run with reporting applications such as DBeaver, for all automated report downloads, and for all Tableau dashboards using LDP data.

- Metadb Test - Continuous streaming data transfers from the FOLIO Test application server are stable. Data accuracy and currency is expected for all reports run with reporting applications such as DBeaver, for all automated report downloads, and for all Tableau dashboards using Metadb data.
