

LDP to Metadb Field Name Changes

Here are field names that have changed in the transition from LDP to Metadb

LDP field name	Metadb field name	Notes
There are 3 LDP data fields from the inventory_items table that are not available in the equivalent folio_inventory.item table (including in the JSON data array) in Metadb. - last_check_in__date_time - last_check_in__service_point_id - last_check_in__staff_member_id	none	3 fields missing in metadb (even in jsonb); See request for this to be fixed at https://github.com/metadb-project/metadb/issues/64
finance_group_fund_fiscal_years.fiscal_year_id	folio_finance.group_fund_fiscal_year__fiscalyearid	only in historical table
finance_group_fund_fiscal_years.budget_id	folio_finance.group_fund_fiscal_year__budgetid	only in historical table
finance_group_fund_fiscal_years.fund_id	folio_finance.group_fund_fiscal_year__fundid	only in historical table
finance_group_fund_fiscal_years.group_id	folio_finance.group_fund_fiscal_year__groupid	only in historical table
folio_reporting.instance_languages.language	folio_derived.instance_languages.instance_language	derived table
folio_reporting.instance_subject.subject	folio_derived.instance_subjects.subjects	derived table

group_fund_fiscal_year__

Columns

123 __id (int8)

__start (timestamptz)

__end (timestamptz)

☒ __current (bool)

ABC __origin (varchar(63))

id (uuid)

jsonb (jsonb)

budgetid (uuid)

groupid (uuid)

fundid (uuid)

fiscalyearid (uuid)

group_fund_fiscal_year_t__

Columns

123 __id (int8)

__start (timestamptz)

__end (timestamptz)

☒ __current (bool)

ABC __origin (varchar(63))

id (uuid)

fiscal_year_id (uuid)

fund_id (uuid)

group_id (uuid)

budget_id (uuid)
